iJetColor 1175 Pro + PXG

Inkjet Technology Licensee
Printware

The iJetColor Family Continues to Grow, Innovate and Deliver.

The iJetColor 1175 Pro + PXG™ expands the capabilities of the world's best-selling high-speed envelope press, giving print providers the power to print and personalize a wide range of packaging applications. Built on the industry-leading iJetColor 1175 Pro platform, the 1175 Pro + PXG delivers exceptional print quality, productivity, and profitability through its rugged design, high-speed performance, and robust feeding and alignment systems—opening the door to new revenue opportunities in personalized packaging.

The integrated PXG feeding system expands production beyond envelopes with one single digital operator to short run packaging. Easy to use, fast feeding systems now expand to handle paper bags, small corrugate, and other packaging substrates, allowing operators to quickly switch between applications and unlock new revenue opportunities. With hundreds of successful installations worldwide, the iJetColor 1175 Pro + PXG is trusted by print providers to deliver reliable performance, maximum profitability, and unmatched versatility—all backed by Printware's industry-leading support, service, and guarantee.

Features:

- HP Proven Thermal Inkjet Technology with water-resistant, pigment-based ink
- 10,000+ envelopes per hour with ultra-reliable vacuum feed system
- PDF based Full-bleed/Precise PMS color DFE
- Exceptionally low cost per print for unbeatable ROI
- Manufacturing Direct Support
