The Compact Envelope Press with Industry's Best-Selling Value

The iJetColor 1175 combines HP PageWide full-color thermal inkjet technology with Printware's innovative, precision-engineered envelope feeding system. The HP FI-1000 printhead produces high-quality, full-color images using durable pigment-based inks that are fade-, scratch-, and water-resistant.

Designed for both short- and medium-run production, the iJetColor 1175 delivers reliable, accurate envelope feeding and consistent print quality. It offers one of the industry's lowest variable ink costs for greater profitability. Its compact, user-friendly design makes it an ideal solution for print and direct mail operations looking to produce personalized, full-bleed, variable-data jobs quickly and efficiently.

The iJetColor 1175 can print and personalize up to 7,000+ #10 envelopes per hour, providing the speed, versatility, and reliability needed to keep production moving. iJetColor offers an unmatched 5-year service program—an industry exclusive backed by Printware's dedicated manufacturing and service team.

Features & Benefits:

- HP Proven Thermal Inkjet Technology with water-resistant, pigment-based ink
- 7,000+ envelopes per hour
- Exceptionally low cost per print for unbeatable ROI
- Engineered for envelope printing—not retrofitted like the rest
- Full-bleed printing with precise PMS color matching
