iJetColor 1175 C

Inkjet Technology Licensee
Printware

Industrial Performance. Compact Design.
Unmatched Value.

The iJetColor 1175C combines the best features of the iJetColor product line into one compact, industrial console-based system. It delivers the affordability of the 1175 benchtop with the fast, variable speeds of the 1175 Pro. Its integrated feeding and alignment system accommodates every envelope size while maintaining a compact footprint, making it an ideal fit for a wide range of production environments.

Designed for single-operator use, the rugged and easy-to-use iJetColor 1175C features proven HP FI-1000 thermal inkjet technology for high-quality, full-color printing. Pigment-based inks produce durable, fade-, scratch-, and water-resistant images, while long-life printheads deliver consistent color and low variable costs. iJetColor offers an unmatched 5-year service program—an industry exclusive backed by Printware's dedicated manufacturing and service team.

Features & Benefits:

- HP Proven Thermal Inkjet Technology with water-resistant, pigment-based ink
- 10,000+ envelopes per hour
- Exceptionally low cost per print for unbeatable ROI
- Engineered for envelope printing—not retrofitted like the rest
- Full-bleed printing with precise PMS color matching
