# **Mailtech** Ultra

High-density black for high-volume addressing.

## USE

| | |
|---|---|
| Overview | Our own black ink for HP-45 heads, made for long addressing runs on paper. Very dark, sharp black; built for bulk ink systems. |
| Best on | Uncoated paper, envelopes, copy paper, matte and dull finishes, corrugated. |
| Other stock | Call us first and we will match the ink to your stock. MAX3 dries fast on Tyvek, PVC and varnish; Collins Sigma solvent is for coated and non-porous stock. |
| Runs in | Any HP-45 head: Straight Shooter, Kirk-Rudy, MCS, Secap, Bryce, AstroJet, Accufast, Pitney Bowes, Rena, Buskro Apollo. |

## SPECIFICATIONS

| | |
|---|---|
| Ink type | Aqueous (water-based) ink, hybrid colorant. Bulk systems recommended. |
| Open time | About 1 hour uncapped |
| Shelf life | 24 months from manufacture |
| Firing | 10.2V · 2.2 µs pulse · pulse warming on at 40°C |
| Temperature | Store 10–30 °C (50–86 °F) · Run 10–40 °C (50–104 °F) |
